Community Service

NASA's Astro Camp

June 2024 – July 2024

Bearcat Robotics

Worked as a counselor for three weeks, including 80+ hours of teaching elementary students about space and programming, using NASA sponsored activities and LEGO Education Spike Prime kits.

Louisiana Tech STEM Camp Counselor

June 2023 – present

Assisted many different Louisiana Tech STEM camps as a counselor over the course of various summers. Through 2-3 weeks each summer, taught both elementary and middle school aged children STEM principles.

Annual Peach Festival Booth

June 2023 – present

Bearcat Robotics

Manned a booth for 3-4 hours each summer at the local Peach Festival. Showcased robot to young children to inspire future participation in the robotics program, alongside providing small, STEM related activities for the children to engage with.

Tutoring

September 2024

Tutored and helped elementary students with their homework after school for parents who work at Louisiana Tech during their convocation.

Extracurricular Programs

Cybersecurity & Cloud Computing Camp

July 2024

Grambling State University

Students learn cybersecurity principles such as cloud, network, and web application security alongside information about common web attacks and how to avoid and stop them.

- \$650 Stipend & Completion Certificate

Projects

Corn on the Job

FBLA Website Coding & Development Project

Developed a functional job search application for guidance offices to use in their schools to simplify the job search process for high schoolers. Made with JavaScript, Python, CSS, and HTML. Employs Flask for quick server management and SQLite for easy database control. Won 1st place in the FBLA State Leadership Conference for Website Coding & Development, and qualified for the FBLA National Conference.
